New size, new pump, more convenience! Now available in a 1.75 oz. size only and equipped with a pump for more safety and convenience, this Sunrider favorite is better than ever!

BLUEPRINT BREAKDOWN

THE PHILOSOPHY OF REGENERATION® SIMPLIFIED

Sunrider® products are formulated according to the *Philosophy of Regeneration®* and its four main principles:

Nourish + Cleanse = Balance (NBC)

Sunrider® products are developed to nourish (N) and cleanse (C) your body in order to achieve balance (B)—NBC. Sunrider's Philosophy of Regeneration® is completely different than other companies' developmental beliefs in that our foods are created to balance—not cure.

VS.

Foods, Not Chemicals

The body is designed to digest food—not chemicals. Even vitamins, minerals, protein powders, fats, and carbohydrates by themselves are just chemicals. Sure, each element comes from nature, but the body does not recognize them as foods.

Nourishing the **5** ELEMENTS

Nourishment must also be understood in terms of nourishing the five elements (or systems) of the body: *the endocrine, respiratory, digestive, circulatory, and immune systems.*

Prime Again®

Works in harmony with hormone-producing glands and the organs they support.*

FIRE

Conco™

Designed to address the body's respiratory system.*

METAL

Assimilaid®

Addresses the digestive system with herbs that help process food quickly and efficiently.*

EARTH

Lifestream®

Promotes balance and fluidity throughout the body by addressing the circulatory system.*

WATER

Alpha 20C®

Addresses the defense system with herbs containing antioxidants and fortifying properties.*

WOOD

Variety

Variety is crucial in maintaining nutritional balance. Every food has strengths and weaknesses. One food may have an abundance of fiber, but lack vitamin C. Sunrider puts its foods together in such a way to help compensate for weaknesses.

Formulation and Concentration

Balance is only achieved when the right foods are combined—that's why expertise and knowledge are essential—and technology is available to properly extract desired ingredients. It's not as simple as putting fruit in a juicer.

Skin Care Sensibilities

The Sixth Element in the Philosophy of Regeneration®

The skin is a complex and fragile system—living, breathing, and carrying out many important functions. Like the rest of your organs, skin must be properly nourished, balanced, and cleansed. That's why skin is the sixth element in the Philosophy of Regeneration®.

The Sunrider® cosmetic and skin care product lines, Kandesn® and Oi-Lin®, use vegetable-based ingredients, gentle, yet effective exfoliants, and are pH balanced to cleanse, balance, and moisturize the entire skin, according to the Philosophy of Regeneration®.

Because total body health is the goal at Sunrider, our products not only nourish the body from the inside out, but the outside in as well.

Quinary®

An expert combination of these five products, Quinary® is a convenient way to keep the body's five major systems in balance by nourishing and cleansing.*

Other products may seem similar to Sunrider® products, but without the Philosophy of Regeneration® they are lacking the efficacy, concentration, and formulation to be as safe and effective as Sunrider. What Sunrider has is truly unique. We want your body to achieve balance so it can regulate and take care of itself, and nourishing the five elements is essential in reaching that goal.

SKIP THE SIZZLE

Sunscreen is Must-Have for Beautiful Skin

As summer slowly fades to fall, remember this: don't skimp on sunscreen. Sun damage is a leading cause of premature aging such as wrinkles, leathery skin, dark spots, and more, so sunscreen is crucial to looking your best for many years to come.

Take your sun skin care to the next level with Sunrider's SPF's. Our effective sunscreens protect your skin with chemical-free titanium dioxide, zinc oxide, and herbal botanicals to effectively shield against both UVA and UVB rays. And they're also lightweight, protective, and hydrating.

Keep your skin smooth, even, and bright through every season—use sunscreen daily.

Visit shop.sunrider.com to browse our entire selection of sunscreens.

We want to hear from you! Send your favorite Sunrider® recipes, success stories, questions, or comments to info@sunrider.com.
